THE FUNERAL SERVICES TO BE HELD IN STRICT PRIVACY.

Only the Dead Man's Near Relatives and Two Friends to be Present-The Processton to Calvary Cemetery to Consist of Three Coaches—Squads of Driscoll's Priends Seeking to See the Body.

The Sixth Ward has been in a state of in tense but decorously subdued excitement ever since it became known that the body of Dan Driscoll was at 496 Pearl street.

All last evening the doorbell of Undertaker John F. Whelan's store was kept jangling, and squads of young men filed up the steps and stood respectfully with uncovered heads. Their invariable request was to be allowed to see the body of the dead Whyo

The store closed at 10 o'clock, but applicants continued to ply the bell until midnight. The same thing occurred the whole of this morning, beginning at a very early hour. With few exceptions the callers were of the male sex, young men wearing tight trousers, pea-jackets and big hats, decidedly

trousers, pea-jackets and big hats, decidedly tough in appearance and speech.

Each little crowd was was preceded by a spokesman and a good deal of talking was done to try and get a look at the body.

All were disappointed, however. Undertaker Whelan sat at his desk and quietly told the numerous delegations that their wishes could not be gratified.

The condemned man, he said, had given explicit directions before his execution that none but near relatives should be allowed to the service.

snan opened the door and begged hard to be allowed to see the body.

"I have come all the way from Troy to see him," he urged, "and it has cost me \$10, counting my day's wages and my expenses."

"I don't care if it cost you \$100," was Mr. Whelan's response, "You can't see him.

The body lies in a room in the rear of the store. It is in a casket of hard brown wood, covered with the best black broadcloth. The casket has six silver handles and rich trimmings. On the lid of the casket is a silver plate with the inscription:

Daniel Driscoll, Died Jan. 28, 1888, Aged 29 years.

Aged 29 years.

It has been said everywhere that he was thirty-three years old, but his mother insists that he was only twenty-nine. She says also that it was not true that he is a native of New York. He was born in England in the winter of 1858.

Every effort will be made to keep the faneral as secret as possible. Old Mrs. Drisholl has given directions that everything shall be neat and respectable. She is prepared to pay from \$150 to \$200 for the burial of her son, but there will be no ostentatious display.

rary Cemetery and the interment will be there.

The funeral would have taken place from old Mrs. Driscoll's house had it not been feared that a crowd would collect and mar the quiet of the arrangements.

Driscoll objected strongly to a wake being had over his body, and gave positive orders that nothing of the kind should be attempted.

His wishes will be obeyed, though it goes much against the grain to forego this ceremony—considered so indispensable to a Sixth Ward funeral.

Lots of people in the ward have asked to know when the funeral will take place so that they can send coaches, but they have been told to spare themselves the trouble, as they will not be allowed to follow the

hearse.

There will be three coaches, and the only mourners will be old Mrs. Driscoll, the young widow, George Driscoll, brother of Dan, the three children, Owney Bruen and Mrs. Delia Gray, godmother of Driscoll's little girl.

She coked much more cheerful than she did on he occasion of her recent daily visits to her rusband's cell, and neither she nor the old ady seem to have given way to excessive trief.

They would give no information as to the time fixed for the funeral, but young Mrs. Driscoll said that she had gone to the undertaker's this morning and chosen a burial dress for her dead husband.

Another move in the contest over the will o Daniel R. Lyddy, which leaves everything to his widow, was made to-day before Surrogate Ranson by the disappointed relatives. They applied to have Mary A. Lyddy's proceedings for the probate of the will, excented on Nov. 25, dismissed on the ground that the testator's half-sister in Ireland was no cited to appear. The Surrogate denied the motion.

This was true in part. THE EVENING WORLD, with its usual foresight and enterprise, had fortified itself against all emergen cies, and when, at a few minutes before the execution, Sheriff Grant ordered that the gates of the Tombs be closed and double locked until the life of the Whyo had gone out and his body been laid in the coffin. THI EVENING WORLD'S resources came into play.

Up to that time the reporter, who was one of the witnesses of the execution, had been sending frequent bulletins of the proceed-ings inside the walls, and they were put into type as rapidly as the best typesetters in the country could do it. So that when, a few minutes after the closing of the Tombs, the drop fell, all that remained to be done was to apprise THE EVENING WORLD of the fact, and the globe knew the whole proceedings down to and including this culminating act

in the tragedy. The reporter inside the Tombs waved his ready handkerchief to the signal man who was in view on the peak of a neighboring building; he, in turn, signalled the third man in the service who, from his chill but exalted perch on the tall shot-tower, waved a red flag to the last man in the outside circuit, as he sat in the window of THE EVENING WORLD office. His field-glasses enabled him to see the flag, and he shouted to the man behind him with a stop-watch. " Time?"

Two seconds were consumed in passing the news to the office and THE EVENING WORLD was being cried on the streets by a thousand boys fully five minutes before its earliest ntemporary.

trial of Antonio d'Andrea, the lover and alleged accomplice of Chiara Cignarale, now under sentence of death for the murder of her husband, was continued before Judge Gildersleeve, in the Court of General Ses-

Two jurors were selected yesterday, when Judge Gildersleeve adjourned court because

Mindful of his yesterday's experiences, Counsellor W. F. Howe appeared to-day wrapped in a monstrous, green overcoat, with a broad, big collar of velvet.

D'Andrea sat just behind him, or rather cronched, for he seemed in imminent fear of the Court. He is a slight, fair-complexioned young fellow, and would not be taken for an Italian.

whom he found beating his wife, wouldn't you?"

The answer was: "Well—I don't know,"

"What! You don't know! Go! Go immediately," and the candidate was defeated. Many citizens said they were opposed to capital punishment and others that they distrusted all circumstantial evidence. They were excused by Assistant District-Attorney Vernon H. Davis.

Mr. Howe asked one juror: "You know that this young man, D'Andrea, is accused of being the lover of Chiara Cignarale, a married woman, and that he is charged with having urged her to kill her husband, like Uriah the Hittite, of the Bible story?"

D'Andrea's pale face flushed a little at his, and his big, hollow gray eyes stared at his lawyer. The juror replied in the negative, and later on was excused.

Henry Snyder, restaurant-keeper at 783 Seventh avenue, foreman, and George Dollinger, of 453 East Fifty-seventh street, occupied the two first seats in the box, and sat alone for more than an hour.

Then David Leon, cigar-maker, at 227 West street, passed the examination successfully and took the third seat.

George Shard, a nickel plater, living at 223 East Fifty-seventh street, was accepted as the fourth juror.

Martin B. Oakes, dealer in hosiery and yarns at 58 Walker street, got the fifth seat, William Engel, retired, of 35 Cottage place, gave a sly wink at Mr. Howe as he said; "I am a single man," but Mr. Davis let him take the sixth seat in the box on his promise to abide by the evidence.

A recess was taken at this point.

Ar. Howe, having been informed that Mr. Davis would not put Chiara Cignarale on the witness stand for the people, made affidavit to Judge Gildersleeve that the condemned woman was a material witness in behalf of D'Andrea.

Judge Gildersleeve thereupon issued at order to Warden Walsh to bring Chiara Cignarale to court each day during D'Andrea's trial, beginning to-morrow. Stock and Petroleum Exchange. The miners will not return to work until some concilatory action is taken by the railroad company. They regard the battle as one directed entirely against organized labor, and say there will be no yielding until starvation and misery force the issues to an end.

The situation at the mines this morning shows no change. A little work is being done at six of the Reading collieries, but it scarcely amounts to anything.

All the colleries are practically idle, only the pumps being kept going. Nearly all the individual colleries have shut down.

The Reading Company will make no efforts to do more than keep up repairs and guard their property. They have prepared everything for a long strike. The individual operators may try to start up, but their success is still a matter of doubt.
